

Mahogany Homeowners Association

Fishing Rules

All fishing is done at your own risk.

Members must be present with their guests at all times.

Fishing Locations

Mahogany Lake offers many opportunities for Member fishing as the lake is stocked annually with Rainbow, Brook and Brown Trout.

- In addition to fishing by boat on the water, Mahogany Members and their guests can fish from shore in the management designated locations such as:
 - The fishing marina dock;
 - West Beach – designated south greenspace;
 - Additional locations which management may designate in future years.
- Lake and Island lot owners may fish from their own private docks;
- Residents & Guests may fish from MOHA rented boats or Kayaks that are permitted for fishing or from privately owned non-motorized watercraft;
- **Use at your own risk.**

While fishing from the Mahogany Beach Club fishing dock, from an MHOA owned boat or any designated fishing area within Mahogany Lake areas, members **must** have their membership credentials on them at all times.

Fish Stocking & Records

- Catch and release is encouraged; however, for those members wishing to take home a trout, the daily creel limit is **two (2)** fish per Member with a monthly household limit of **twelve (12)** fish per residence. All fish caught by guests will be included in the Member's creel limit;
- Members must register the number and species of fishes caught and kept, including those caught by their guests, before leaving the MHOA park at 403.453.1221, extension 1, or emailing reception@mahoganyhoa.com or at the Boat Kiosk when open for the season;
- Lake lot, island lot and access way Members should advise the Mahogany Beach Club office of the number and species of fish(es) caught and kept by calling 403.453.1221 extension 1 or emailing reception@mahoganyhoa.com the same day;
- All email notifications of creel records **MUST** include your Mahogany Address;
- Annual stocking will be based on the number of fishes reported removed from the lake by members and guest, please help us in ensuring future fish stocks are maintained.
